ASSIGNMENT - 5

Assignment Deadline: **11-Nov-2019 (11:59PM)**

Github_Username fill deadline: **8-Nov-2019 (11:59PM)**

Instructions:

1. In this assignment, you have to write content on the topics provided to you. The topics along with the student name are shared in the spreadsheet.
2. Content generated should be authentic and zero plag. This applies to numerical problems as well.
3. Grading will depend on below
   a. Authenticity and originality 10%
   b. Ease of understanding 40%
   c. Use of numerical/toy example 30%
   d. Similarity with how it was taught in class 20%
4. If one question is assigned to two individuals - each should work on it independently in its entirety.
5. Type math equations. Do not take a screenshot.
6. Total points - 20

Other Instructions:

1. You have to write your content on Github Wiki Pages. The link to the Github Repository shared below. Click on the repository —> go to the wiki page—> Select your content page and do the edit on that page.

2. You don't have edit access to the wiki pages of the repository, to get the access you have to provide your Github user name in the spreadsheet provided. The **deadline** for the same is **8-11-2019 midnight**.
